AETNA — Prior Authorization Request

Request ID:	AUTH-PA-2026-04-R3B1
Requesting provider:	Dr. R. Kapoor, MBBS, DM · Med Onc
Submitted via:	Authrex / FHIR R4 Da Vinci PAS 2.0.1
Form:	X12 278 bridge

Trastuzumab (J9355) for adjuvant breast cancer — HER2 equivocal

Patient

Patient (initials):	J.D.
Age / Sex:	54 y / Female
MRN:	MRN-91024
Insurance:	Aetna PPO

Diagnosis

Primary diagnosis (ICD-10):	C50.911 — Malignant neoplasm of right breast
Stage:	Stage IIIA
Pathologic diagnosis confirmed:	YES (core biopsy)

Biomarkers — equivocal

HER2 IHC:	2+ (equivocal) — borderline membrane staining
HER2 FISH:	NOT YET PERFORMED — pending reflex order
ER:	Positive (40%, weakly)
PR:	Negative

Performance status & cardiac function

ECOG performance status:	Not documented
LVEF:	Pending (echocardiogram scheduled 2026-05-12)

Notes

ASCO/CAP guideline: HER2 IHC 2+ requires confirmatory FISH testing before trastuzumab can be considered. Reflex FISH was ordered but result is pending. ECOG and LVEF assessments are outstanding. Submitting current packet to begin concurrent payer review while ancillary results are obtained.
